

GOAL	Indicator Level	Log Frame ID	Indicator	Unit	End Target
GOAL: Mobilize rural communities to achieve their own development goals	output	1.0.1	Number of trainees in VCA workshops	number	TBD by country
	output	1.0.7	Presence of land deed to epicenter	yes/no	yes
	output	1.0.8	Presence of meeting hall at the epicenter	yes/no	yes
	output	1.0.9	Number of trainees in Income Generating/Livelihood Activities	number	TBD by country
	output	1.0.10	Presence of an electrical connection	yes/no	yes
	outcome	1a	Democratic Operations of an elected epicenter committee	Yes/no	yes
	outcome	1b	Proportion of community members who perceive leaders to be successful in addressing community concerns	percent	TBD by country
	outcome	1d	Proportion of population participating in epicenter activities, committees, workshops, and meetings	percent	TBD by country
	outcome	1e	Number of community-initiated projects	number	TBD by country
	outcome	1f	Number of IGAs contributing revenue to the epicenter	Number	TBD by country
	outcome	1g	Number of partnerships in place between epicenters and other stakeholders	Number	TBD by country
	outcome	1h	Epicenter legally recognized	yes/no	yes
	impact	1.1	Proportion of individuals reporting the ability to change their communities	percent	TBD by country
	impact	1.2	Epicenter revenue exceeds costs	yes/no	yes
GOAL: Empower women and girls in rural communities	output	2.0.2	Number of animator trainees in women's empowerment	number	TBD by country
	output	2.0.6	Number of trainees in microfinance workshops	number	TBD by country
	output	2.0.8	Number of animator trainees in Literacy and Education	number	TBD by country
	outcome	2a	Proportion of women serving in executive positions on committees	percent	TBD by country
	outcome	2d	Proportion of births attended by licensed health care professional	percent	TBD by country
	impact	2.1	Women's Empowerment Impact Score	Number	TBD by country
GOAL: Improve access to safe drinking water and sanitation facilities	output	3.0.2	Number of animator trainees in WASH	number	TBD by country
	output	3.0.4	Presence of a functioning improved water source at epicenter site	yes/no	yes
	output	3.0.6	Presence of public latrine at epicenter site	yes/no	yes
	outcome	3a	Proportion of households using an improved drinking-water source	percent	TBD by country
	outcome	3b	Proportion of households using an improved sanitation facility	percent	TBD by country
	impact	3.1	Prevalence of diarrheal disease in children under 5	percent	TBD by country
GOAL: Improve literacy and education of rural communities	output	4.0.1	Number of literacy facilitators trained	number	TBD by country
	output	4.0.3	Presence of an epicenter preschool or nursery school	number	yes
	output	2.0.8	Number of animator trainees in Literacy and Education	number	TBD by country
	outcome	4a	Number of graduates from Functional Adult Literacy classes	number	TBD by country
	outcome	4b	Proportion of children age 4-18 attending school	percent	TBD by country
	impact	4.1	Proportion of households with at least one literate person	percent	TBD by country
GOAL: Reduce the prevalence of hunger and malnutrition, especially for women and children	output	5.0.1	Number of animator trainees in nutrition	number	TBD by country
	outcome	5a	Proportion of households with knowledge of exclusive breastfeeding practices	percent	TBD by country
	outcome	5b	Operational Food Bank	Food bank score 0= no food bank 1= food bank, with average annual quantity of food stored less than 10% 2= Food bank, with average annual quantity of food stored at or above 10%	2
	impact	5.1	Prevalence of households with moderate or severe hunger	Between 0-6	TBD by country
	impact	5.2	Prevalence of stunting in children under 5		TBD by country
GOAL: Improve access to and use of health resources in rural communities	output	6.0.1	Number of animator trainees in health	number	TBD by country
	output	6.0.4	Number of vaccines delivered	number	TBD by country
	output	6.0.5	Number of animator trainees in HIV/AIDS	number	TBD by country
	outcome	2d	Proportion of births attended by licensed health care professional	percent	TBD by country
	outcome	6b	Operational health unit in epicenter	0= No health unit or health unit is not free 1= has one of the key components 2= has two of the key components 3= has three of the key components 4= has four of the key components 5= has all key components	5
	outcome	6c	Proportion of population over 15 years old with comprehensive correct knowledge of HIV/AIDS	percent	TBD by country
	impact	6.2	Proportion of individuals using clinics/health workers during illness	percent	TBD by country
GOAL: Reduce incidence of poverty in rural communities	output	7.0.1	Number of animator trainees in Livelihood/IGAs	number	TBD by country
	output	7.0.2	number of active clients	number	TBD by country
	output	7.0.4	Amount saved	USD	TBD by country
	output	7.0.5	Number of animator trainees in microfinance	number	TBD by country
	output	7.0.6	Presence of a Rural Bank	yes/no	yes
	output	2.0.6	Number of trainees in microfinance workshops	number	TBD by country
	impact	7a	Recognized Rural Bank	0= Bank hasn't begun process 1 = Bank recognition in progress 2 = Recognized bank	2
	outcome	7c	Proportion of adults accessing financial services	percent	TBD by country
	outcome	7e	Percent of Portfolio at Risk for greater than 90 days	percent	TBD by country
	impact	7.1	PPI: Proportion of households below the poverty line	[Average household score]	TBD by country
GOAL: Improve land productivity and climate resilience of smallholder farmers	output	8.0.1	Number of animator trainees in food security & agriculture	number	TBD by country
	output	8.0.4	Presence of community demonstration field at epicenter	yes/no	yes
	outcome	8a	Proportion of smallholders applying improved management practices and technologies on farms	percent	TBD by country
	outcome	5b	Operational Food Bank	Food bank score 0= no food bank 1= food bank, with average annual quantity of food stored less than 10% 2= Food bank, with average annual quantity of food stored at or above 10%	2
	impact	8.1	Percent change in yields per hectare for farming households	percent change	TBD by country

NOTES	
Stunting Impact	Stunting data is difficult to collect from a single reliable source and would not make sense to include as part of the current outcome survey. Work continues to decide how to best track and report on this data point.
Purple text	Indicators that will be used to calculate progress in multiple goal areas appear in purple text each time they are repeated.
Financial Access indicators, including 1.11	THP's Microfinance Program is currently undergoing review following an external evaluation in July 2014. Indicators related to this program may evolve to continuously provide the most relevant and compelling metrics of program success.
